

CURRICULUM VITAE

GIOVANNI FELDER

PERSONAL INFORMATION

Address:	Department of mathematics ETH Zurich 8092 Zurich, Switzerland	Phone:	+41 44 632 3409
		E-mail:	felder@math.ethz.ch
		Website:	http://www.math.ethz.ch/~felder
		OrcID :	0000-0001-5775-2287

EDUCATION

1977–1982	ETH Zurich, Diploma in physics
1982–1986	ETH Zurich, Ph.D., Advisor: Jürg Fröhlich

POSITIONS HELD

1986–1988	IHES, Bures-sur-Yvette, postdoc
1988–1989	IAS, Princeton, Member
1989–1991	ETH, Institute of Theoretical Physics, Oberassistent
1991–1994	ETH, Department of Mathematics, Assistentzprofessor
1994–1996	University of North Carolina at Chapel Hill, Department of Mathematics, Full professor
1996–	ETH, Department of Mathematics, Full Professor

Visiting positions: RIMS, Kyoto(1991), MSRI, Berkeley (2002), Kavli Institute of theoretical physics, Santa Barbara (1990 and 2006), Institut Henri Poincaré, Paris (2007), Massachusetts Institute of Technology, Cambridge (2009), Tokyo University (2009), Radboud University, Nijmegen (2010), IHES, Bures-sur-Yvette (2022)

AWARDS AND HONORS

1986	ETH medal
1994	Invited speaker at the International Congress of Mathematicians
2012	Fellow of the American Mathematical Society
2012	Member of the Academia Europaea

SELECTED INVITED TALKS

August 1994	Conformal field theory and integrable systems associated with elliptic curves, invited talk, International Congress of Mathematicians, Zurich,
April 2002	From numbers to q-numbers to elliptic numbers: the elliptic gamma function, Mathematics colloquium Berkeley
April 2006	The gamma function and other infinite products, Mathematisches Kolloquium, Universität Bonn
August 2006	The work of Andrei Okounkov (Laudatio), International Congress of Mathematicians, Madrid
January 2008	Feynman graphs and Riemann-Roch-Hirzebruch theorem, Mathematics Colloquium, King's college
October 2009	Holomorphic differential operators and the Riemann-Roch-Hirzebruch formula, Brandeis-Harvard-MIT-Northeastern Joint Mathematics Colloquium, Harvard University
July 2014	Derived representation schemes, Colloquium of the Mathematical Institutes, University of Münster
May 2018	Gauge theory partition functions, representation schemes and random matrices, The Mathematical Legacy of Bertram Kostant, MIT
June 2021	Superstring measure and super period map, String Math 2021, Rio de Janeiro (online)

ADVISOR EXPERIENCE AND POSTDOCTORAL MENTORING

PhD students, with year of thesis defense: Mauro Crivelli (1993), Pierre-Alain Bovier (1995), Anke Schorr (2000), Andrea Cavalli (2001), Lorenzo Tomassini (2002), Benoît Dhérin (2004), Damien Calaque (principal supervisor: Benjamin Enriquez) (2005), Peter Elbau (2006), Markus Engeli (2008), Thomas

Willwacher (2009), Andrea Ferrario (2012), Roman Riser (2012), Leonardo Aguirre (2014), Claude Eicher (2016), Claudio Sibilis (2017), Martin Müller-Lennert (2018), Alexander Vitanov (2019), Stefano d’Alesio (current), Jelena Anic (current), Tommaso Botta (current)

Postdocs: Benjamin Enriquez, now professor at the University of Strasbourg, Boris Shoikhet, now professor at the University of Antwerpen, Chenchang Zhu, now professor at the University of Göttingen, Damien Calaque, now professor at the University of Montpellier, Anton Khoroshkin, now lecturer at the Higher School of Economics, Moscow, Giorgia Fortuna, moved to Wolfram Research, Huafeng Zhang, now Maître de conférences at the University of Lille, Qingtao Chen, now Assistant Professor at NYU Abu Dhabi, Iuliya Beloshapka, now working at Google, Gabriele Rembado, now postdoc at the University of Bonn, Xiaomeng Zhu, now Assistant Professor at Peking University, Michele Schiavina (current)

PROFESSIONAL SERVICES

Editor of Communication of Mathematical Physics, 1993–1998
Editor of Journal of Mathematical Physics, 2010–2014
Associate Editor of Letters in Mathematical Physics, since 2009
Editor of the SISSA Springer Series, 2019–
Editor of Selecta Mathematica, 2020–

Member of the Scientific Board of the Centro Stefano Franscini, 1997–2008
Member of the Research Commission of ETH Zurich, 2004–2009
Expert for mathematics at the Liceo Lugano 2, since 1999
Member of the Scientific Board of the SwissMAP Research Station, since 2020

ADMINISTRATION

2004–2010	Steering Committee of the programme MISGAM (Methods of Integrable Systems in Geometry and Applied Mathematics) of the European Science Foundation
2000–	Member of selection committees for high school teachers in the Canton Ticino.
2005–2009	Chair with T. Kappeler of the Zurich Mathematics Colloquium ETH-University
2010–2011	Head of the Department of Mathematics, ETH Zurich
2013–2019	Founding Director of the ETH Institute for Theoretical Studies
2014–2022	Co-Director of the National Centre of Competence in Research “SwissMAP”

GRANTS

1994–1996	US National Science Foundation grant DMS-9400841
2000–2002	Swiss National Science Foundation grant 21-59034.99
2002–2004	Swiss National Science Foundation grant 21-65213.01
2003–2005	Grant of the ETH Research Commission
2004–2008	Swiss National Science Foundation grant 200020-105450
2005–2009	EU Research Training Network ENIGMA (Scientist in charge of the node of Zurich)
2007–2009	Marie Curie Intra-European fellowship, European Commission
2008–2011	Swiss National Science Foundation grant 200020-122126
2011–2014	Swiss National Science Foundation ProDoc programme “Geometry, Algebra, and Mathematical Physics”, grants PDAMP2_137151, PDFMP2_137195
2014–	National Centre of Competence in Research “SwissMAP – The mathematics of physics” of the Swiss National Science Foundation
2020–	Swiss National Science Foundation grant 200021_196892
